

Project Proposal

Prepared for: INFO5100

Prepared by Leela Venkata Ravi Kumar Kanthi, Shreyas Redij, Joy Gomes

March 26th, 2020

Objective

E-Adopting is all about adopting a newborn by proper decision making, paperwork, and a full range of supportive services, all designed to make the transition of growing your family as smooth as possible. On a regular basis thousand plan to abort the child due to following reasons:

- Not financially prepared: 40 percent
- Bad timing, not ready, or unplanned: 36 percent
- Partner-related reasons (including the relationship is bad or new, she doesn't want to be a single mother, her partner is not supportive, does not want the baby, is abusive, or is the wrong guy): 31 percent
- Need to focus on her other children: 29 percent
- Not emotionally or mentally prepared: 19 percent
- Interferes with educational or vocational plans: 20 percent
- Health-related reasons (includes concern for her own health, the health of the fetus, use of prescription or non-prescription drugs, alcohol, or tobacco): 12 percent
- Want a better life for a baby than she could provide 12 percent
- Not independent or mature enough for a baby: 7 percent
- Influences from family or friends: 5 percent
- Doesn't want a baby or to place the baby for adoption: 4 percent

However, many people are willing to adopt a newborn in order to start their family. Hence, the main objective of this E-system is to allow mothers during their pregnancy to get in touch with families that desire to start a family. Further, proper counseling and monetary support will be provided to the birth mother. Moreover, our qualified and experienced staff is here to answer queries and to personally assist you, step by step, through the adoption process.

Application Key Entities

- Adoption Organization
- Abortion Organization
- Counselor Organization
- Banker Organization
- Admin Organization
- Support Organization

Key Functionalities

Adoption Family:

- Family that desire to adopt a newborn require to create a profile with all their necessary information. This profile information would be verified and approved by the counselor.
- After the birth mother confirms a family, the E-system will allow the family to interact with the mother, provide necessary funds through the bank and will be updated with the monthly progress of the pregnant mother.

Birth Mother:

- The birth mother who is in a dilemma to abort or give birth to the child would need to create a profile as she visits the Hospital. A counselor would be assigned to the birth mother by the admin.
- The mother takes her decision to either abort or go ahead with the pregnancy after the completion of the counselling.
- After her decision to proceed with the pregnancy a list of families looking to adopt would be displayed in the application. Furthermore, the system allows her to schedule meetings in order to get acquainted with them and view the family records.
- Through the application the mother can request for monetary help from banks, receive funds from the chosen adoptive parents and will also appropriate health care.
- Once logged in, the birth mother can view the health reports, funds transferred by the adoptive parents, progress cards. She can even stay in touch with the counselor to get constant updates about the stages of pregnancy through email and vice-versa.

Counselor:

- Each case is handled individually by the counselor and they maintain a check on the patient's well-being and health
- During the counselling session, the counselor gives the birth mother all the valid reasons to go ahead with the pregnancy.
- If the Birth mother agrees to have the child, then the counselor triggers go ahead request and the Birth Mother is sent an intimation about the same with list of adoptive families to select.
- They are even provided financial aid by the parents or can request funds from the bank.
- The Counselor plays a vital role as they approve the family after scrutinizing their documents.

Bank Organization:

- The bank approves funds requested by the mother based on the financial documents submitted by the mother and family.
- The amount would be transferred to the Birth Mother by the bank after the approval is complete.

Admin Organization:

- System Admin organization is the unit which manages the other functioning of other branches of the system
- It ensures that every user/ individual in the work area is provided with a Counsellor and has access to the resources in the network.
- Super Admin is the owner of the entire system who can create new networks and enterprises.

Support Assistant

- In order to have smooth transition with the entire adoption process experienced assistant team will be there to guide.
- Assistance will be provided in 24x7 hours.
